Executive Profile

SUMMARY: *I am a dependable, self motivated person, having the technical skills knowledge and attitude to initiate and implement company wide programs and systems, manage multiple projects, while solving problems, in a professional manner, which may arise in any and all aspects of the architectural woodwork industry.*

Skill Highlights

- Operations, Project Management, Estimating and Business Development, Engineering, AutoCAD, Microvellum , Cost Analysis, Microsoft Office, Bluebeam, Design and Implementation • All phases of the Architectural Millwork and Woodwork discipline. • Casinos, Hotels, Stadiums, Restaurants, Corporate Offices,AWI QCP

Core Accomplishments

- I have remained faithful to the woodworking industry my entire professional life. I built my career from the ground up, initially apprenticing in England to learn the craft that has served me well. Through dedication and hard work, I have built and run major national and international woodworking concerns, which remain profitable today. I can call on any past relationships from manufacturers to large multinational general contractors, as well as prominent design professionals, who will give sage recommendations on my behalf.
