

## **PLUMA-PLY™ HDF**

European Poplar Plywood  
with HDF Outer Layers

European Quality Built to American Standards

Ultra smooth poplar core veneers  
covered with thin layers of HDF for  
exceptional surface quality, machining  
and laminating results

# PLUMA-PLY™ HDF

## European Poplar Plywood with HDF Outer Layers

European Quality Built to American Standards

49"x97" standard dimension (other dimensions available on request)

Thicknesses available from 3/8" to 2"

Standard dimensions offered:  
49"x73", 49"x85", 49"x97", 49"x121",  
61"x97" and 61"x121"

Standard constructions with 2.0mm  
HDF outer layers for painting and  
laminating or 3.7mm HDF outer  
layers for application of Thermally  
Fused Laminates

Lightweight -3/4"x49"x97" Panels  
with 2mm HDF outer layer weigh  
approximately 75 lbs

Thickness tolerances: +/- 0.015"

HDF outer layers for a smooth, void  
free surface perfectly suited for overlay  
of foils, melamine, HPL or decorative  
hardwood veneers

Poplar core veneer is from sustainably  
managed poplar plantations in  
Spain and France (PEFC Certified) FSC  
available on request

Balanced platform constructions  
with premium veneers for exceptional  
bond quality, flatness and machining  
properties

Core veneers are dried to 6%-8%  
moisture content in mechanical  
dryers prior to platform assembly

CARB Phase 2 Certified (TPC-4)  
NAUF and Exterior Panels Available  
on Request

Ocean transit time from Spain to  
Eastern USA is only 10 days = quick  
and reliable lead-times

State of the art highly automated manufacturing operations

Garnica Plywood exports 90% of its production to 30 countries worldwide

Garnica Plywood offers tailor-made solutions to its clients. No other plywood manufacturer has a more diversified product range
